## 1. Related Links

Here you can find some related links to JavaScript and especially logging and this project.

### 1.1. Tools used for development in this project

- ANT as build tool: <http://ant.apache.org>.
- JSLint - The JavaScript Verifier: <http://www.crockford.com/jslint/lint.html>.
- ASF Bug entry for integrating log4js in Apache logging service: [http://issues.apache.org/bugzilla/show\\_bug.cgi?id=36961](http://issues.apache.org/bugzilla/show_bug.cgi?id=36961).

### 1.2. Tools used for testing

#### Note:

These tools are not used yet. They are just to remind.

- JUnit for Unit testing: <http://www.edwardh.com/jsunit/>
- JSTester JS testing using Javas JUnit framework and JS-script engine Rhino: <http://jstester.sourceforge.net/>
- Selenium is a test tool for web applications: <http://www.openqa.org/selenium/index.html>

### 1.3. Tools used for Documentation

- Forrest for generating web site: <http://forrest.apache.org>
- JSDoc for API documentation: <http://www.anvilon.com/software/jsjam/>

### 1.4. Other JavaScript Logging Projects

There are a lot other projects which are started logging in JavaScript:

- Fourspace Log4js: <http://log4js.sourceforge.net/>
- Lumberjack: <http://gleepglop.com/javascripts/logger/>
- fvlogger: <http://www.alistapart.com/articles/jslogging>
- jslib: <http://www.petrusrex.com/Programmes/jslib.htm>
- jsTrace: <http://www.easy-designs.net/code/jsTrace/>
- Logger: <http://insin.woaf.net/code/javascript/logger.html>
- Dan Allen's Scriptsandbox jsError and Logger.js: [http://mojavelix.com/wiki/doku.php?id=scriptsandbox#jserror.js\\_jserror.php](http://mojavelix.com/wiki/doku.php?id=scriptsandbox#jserror.js_jserror.php)  
Dan Allen also wrote the first ideas of MetaTagLogging which are influenced  
MetatagAppender: [http://www.mojavelix.com/blog/archives/2005/01/javascript\\_logging\\_via\\_meta/index.php](http://www.mojavelix.com/blog/archives/2005/01/javascript_logging_via_meta/index.php).

- Eric Spiegelberg's Log4Ajax: <http://log4ajax.sourceforge.net/> and associated article: <http://today.java.net/pub/a/today/2005/12/13/log4ajax.html>.
- Andre's JSLog: <http://www.earthcode.com/ajax/2005/12/jslog.html>.
- Tim Down's log4javascript: <http://log4javascript.sourceforge.net> which is very similar to this project.
- [Blackbirdjs](http://code.google.com/p/blackbirdjs/) (<http://code.google.com/p/blackbirdjs/>)

## 1.5. Other Logging related Links

- General logging services for several languages: [logging.apache.org](http://logging.apache.org) (<http://logging.apache.org/>)
- AJAX Testing and Logging: [http://www.decafbad.com/blog/2005/07/18/ajax\\_testing\\_and\\_logging](http://www.decafbad.com/blog/2005/07/18/ajax_testing_and_logging).
- AJAX Patterns: <http://ajaxpatterns.org/Logging>.
- XML.com: Errors and AJAX: <http://www.xml.com/pub/a/2005/05/11/ajax-error.html>.
