Special thanks to all who helped to improve log4js. Here a list of people supported us:

- [Sven.Space](http://www.sven-space.de) (<http://www.sven-space.de>) : The nice logo of log4js.
- [Sébastien Lecacheur](http://zer0.free.fr/blog/index.php/) (<http://zer0.free.fr/blog/index.php/>) : Some documentations.
- [Ben Simpson](http://www.javablog.com/pages/ben.html) (<http://www.javablog.com/pages/ben.html>) : Improvements in english docs.
- [Christian Gross](http://www.devspace.com) (<http://www.devspace.com>) : Found the sources to be good enough to be used in his book "Ajax Patterns and Best Practices"
- [Nicolas Justin and Gregory Kokanosky](http://www.idealx.com) (<http://www.idealx.com>) : patched FileAppender to support now also Mozilla Browser. Many thanks for this patch.
